

# Synergy *of* Solutions

**Dermapenworld™**

The World's #1 Microneedling Company

# The Gold Standard in Microneedling

More than a decade ago, DermapenWorld™ brought the original Dermapen™ into clinics.

Since then, our network of providers have together delivered 4 million Dermapen Treatments™ worldwide.

DermapenWorld™ has revolutionised microneedling and helped people gain smoother and glowing skin.

# 12 Reasons to Choose

## Digital Display with One Touch Integrated Procedural Settings

Manage depth, speed and treatment settings at the press of a button.

## Anti-Contamination Management™ (ACM™)

Unrivalled safety and protection guaranteed. No fluid backflow, no cross-contamination and no drag.

## Dual Power Operation

Convenience of using cordless, or plug in to a power source.

## Built-in RFID Needle Cartridge

Automatic calibration technology for precise, reliable, and drag-free needle penetration.

## Advanced Oscillating Vertical Needle™ (AOVN™) Technology

The needles puncture skin in an up and down motion, for increased speed, precision and safety.

## Up to 7-Year Warranty

Get peace-of-mind for your investment with a fully transferable warranty, including parts and labour.

## AOVN™ Retention Valves

No dragging. Achieve greater penetration with regulated suction release.

## Bluetooth-enabled Connectivity

Automated warranty, updates, support for an unrivalled advantage.

## Visionary Marketing Support

Receive priority access to our clinic finder listing to attract more patients to your practice.

## Ergonomic Design

Lightweight and durable hand-piece with easy grip mechanism.

## Scar Treatment Setting

3mm maximum depth with autocalibration of speed and depth.

## Revolutionary 16 Needle Cartridge Design

Creates more rejuvenating channels for better results while gliding over skin allowing patient comfort.

# Complete Skin Care System

**At DermapenWorld™, we firmly believe everyone deserves the best skin possible.**

We have spent years researching and innovating, always striving for solutions that deliver real results. Our goal is to give you the tools to help manage your patients' skin.

Our Synergy of Solutions is a complete skin care system. Combining the power of Dermapen 4™ with the benefits of carefully crafted ingredients in Dp Dermaceuticals™, our skincare range is suitable for all skin types and concerns.

This holistic approach ensures you can optimise the condition of patients' skin.

Are you ready to rewrite your patients' skin?

## Number One Choice for Leading Skin Specialists

**Dp Dermaceuticals is a multi-award-winning skincare range that has been exclusively created to improve all skin types and conditions.**

Leaning on years of research and backed by scientific breakthroughs, Dp Dermaceuticals features professional, clinic-only lines and products suitable for home use and in-clinic.

Join leading skin care specialists and be part of the DermapenWorld revolution.

**The comprehensive range covers:**

- ✓ Everything for a twice-daily skincare routine—from cleansing and nourishing, to correcting, moisturising and protecting.
- ✓ High quality products with potent actives to target skin concerns via professional treatments.
- ✓ Next-level options to boost skin rejuvenation with LED Light Therapy and 3D Sculptured Masks.

Approved protocols and ultimate standards  
Latest skincare innovations including hyaluronic acid  
Layer-Lock compatible glass bottle with UV-protective cap  
Sterile packaging

# Exosomes

## The birth of a regenerative force

### **MG-EXO-SKIN™ and EXO-SKIN™ are a dynamic duo.**

These remarkable products are destined to deliver an exciting force in regenerative medicine, revolutionising aesthetic procedures, skin health and quality.

Partnering with the most progressive innovators in stem cell research, we have sourced ethically derived Exosomes. These are multipotent, highly versatile, the youngest and purest source —the best of the best!

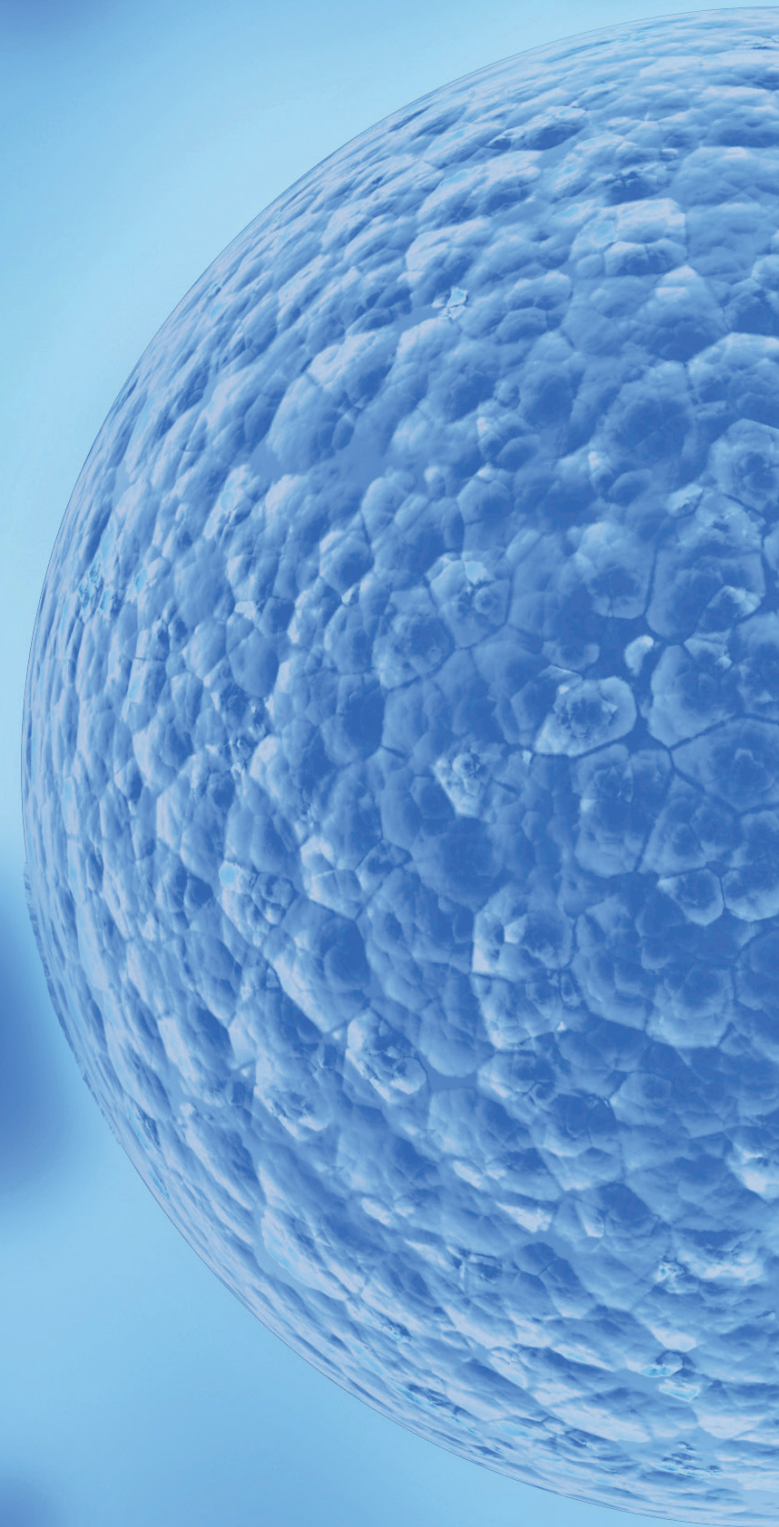

### **As a potent active ingredient**

—Exosomes have been shown to:

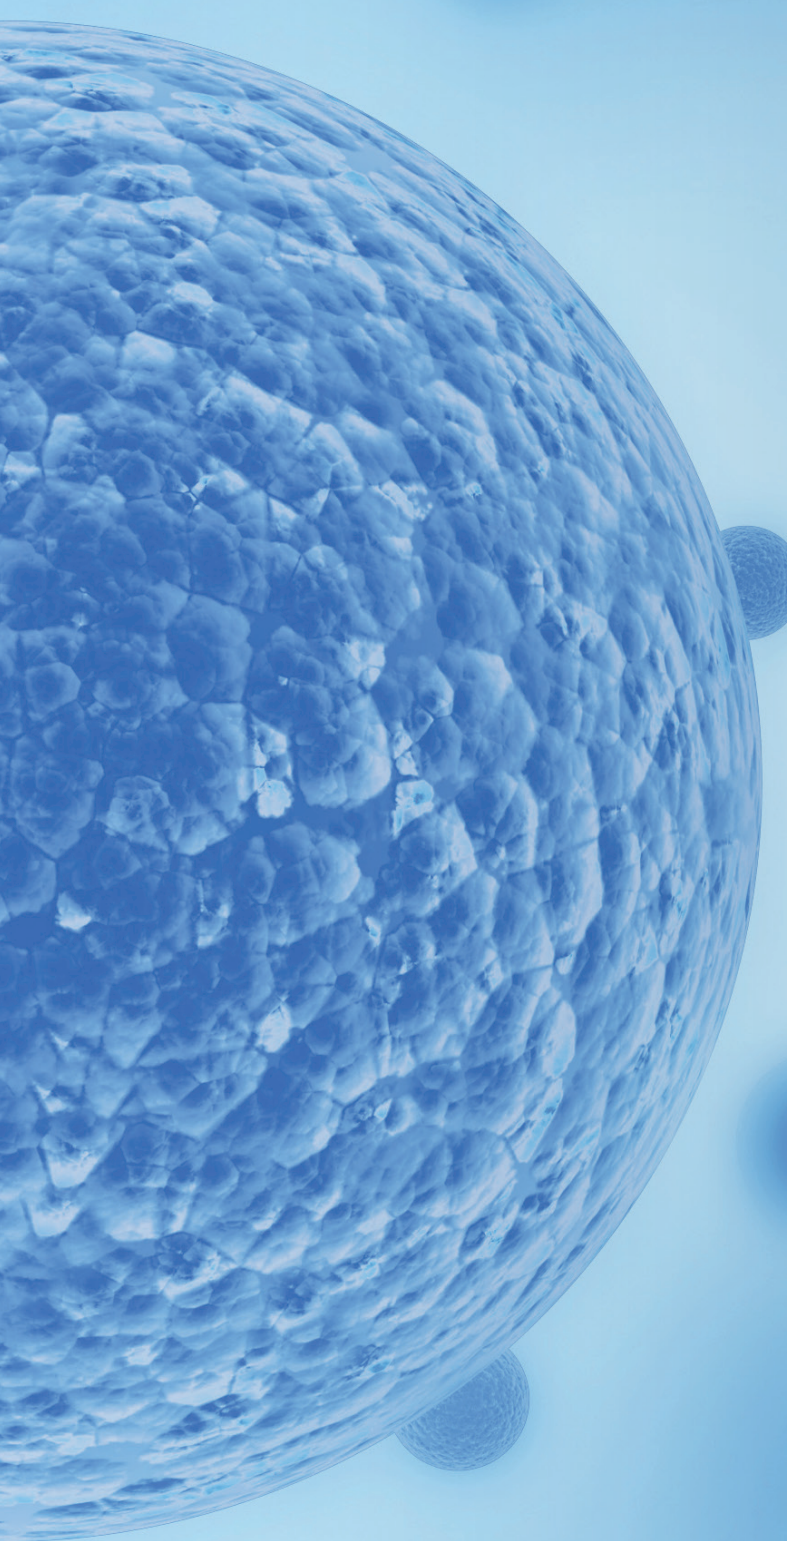

- ✓ Maximise the potential of skin regeneration
- ✓ Boost natural cellular repair, signalling for more youthful looking skin
- ✓ Stimulate synthesis of collagen and elastin
- ✓ Promote regulated wound healing
- ✓ Help reduce the appearance of ageing skin, pigmentation and rosacea.

Scan the QR code for more information.

### MG-EXO-SKIN™

Part of our MG-Collection.  
Designed to complement in-clinic  
microneedling procedures and  
mesotherapy.

### MG-R.A.S.™

To help 'Reverse Ageing  
and Scars' (R.A.S.).

#### PERFORMANCE INGREDIENTS:

Vitamin A (Retinaldehyde),  
Vitamin E, Centella Asiatica  
Extract, Copper Peptides.

# Über Peels

## The next evolution in chemical peeling

**ÜBER Peels are an all-in-one solution that will offer fantastic benefits to your patients and practice.**

Chemical peels can be problematic, and with a short shelf life they can lead to waste, eating into your profit margins.

**A game-changer for your business.**

ÜBER Peels encompass all, so you no longer need complicated solutions for results. ÜBER Peels are safe and effective:

- ✓ after microneedling
- ✓ to improve the appearance of multiple concerns.

Formulated to be used as part of a Dermapen Treatment™ or as a powerful stand-alone clinical procedure, ÜBER Peels are only to be applied by trained **Authorised Treatment Providers**.

### ÜBER PRO™

This professional peel is exclusively designed to enhance the results of microneedling procedures but also acts as an effective stand-alone peel.

Its special blend of treatment actives increase cellular turnover while addressing the signs of ageing, dyschromia, hyperpigmentation, melasma, milia and acne. Suitable for pigmentation, sun damage, ageing and problematic skin and safe to use on any skin colour.

#### PERFORMANCE INGREDIENTS:

Mandelic Acid, Lactic Acid, Pyruvic Acid, Hyaluronic Acid, Kojic Acid Dipalmitate, Retinaldehyde, Ferulic Acid, Arbutin, Copper Peptides, Niacinamide.

### NEW ÜBER MD™

A medical strength peel that practitioners can add to microneedling treatments to help accelerate results. Can be used on atrophic scars, striae and deep wrinkles and is safe for Fitzpatrick Skin Types 1-4.

Formulated with potent actives, ÜBER MD delivers medium-depth coagulative necrosis in the depression point or target area.

#### PERFORMANCE INGREDIENTS:

Chloroacetic Acid (Superior alternative to standard TCA), Salicylic Acid, Capryloyl Salicylic Acid, Pyruvic Acid, Phenol, Retinaldehyde.

# Ready for the Best?

There is only one original Dermapen™

As a DermapenWorld ATP, you're not just purchasing a device. You are investing in your business with the BEST ROI (Return on Investment) in the industry. "Dermapen Treatments" are still the number one searched microneedling treatment.

## This is your opportunity to:

- ✓ Tap into a global network of Distributors and support
- ✓ Receive ongoing training
- ✓ Access online webinars and on-demand material
- ✓ Promote your clinic with marketing assets including monthly campaign materials
- ✓ Relax with up to 7-years warranty on your Dermapen 4 device, and much more.

Rewriting your patients' skin journey starts here.

**Dermapenworld**  
ORIGINAL TRUSTED  
**AUSTRALIAN**

# Why DermapenWorld?

## Authorised Treatment Provider (ATP) Recognition

Only Dermapen 4 providers are recognised as official DermapenWorld ATPs. Dermapen is the original, most-trusted and the world's leading microneedling device.

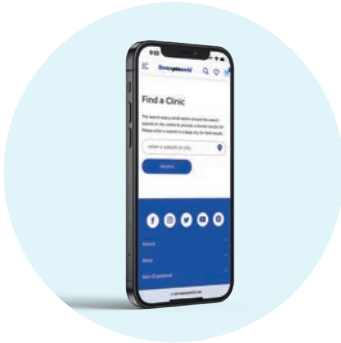

## Global Network

We're global! Our authorised distributor network spans more than 70 countries.

## ATP-Zone

An exclusive information hub for ATPs. It's your one-stop destination for technical support and marketing resources including articles, video tutorials and FAQs.

### Free listing - Find a Clinic

ATPs are listed for free on DermapenWorld's Find a Clinic, making it easier for patients in your area to discover you.

### Knowledge is Power

Access a myriad of endorsed training opportunities, many led by industry experts from the medical profession.

### Clinical Support & Protocols

Throughout your journey with DermapenWorld, we'll give you all the necessary support along with the protocols to follow to maximise results and ensure patient safety.
