

HV Stent Plus

Low-profile delivery system 16 F / 22 F

Improved flexibility

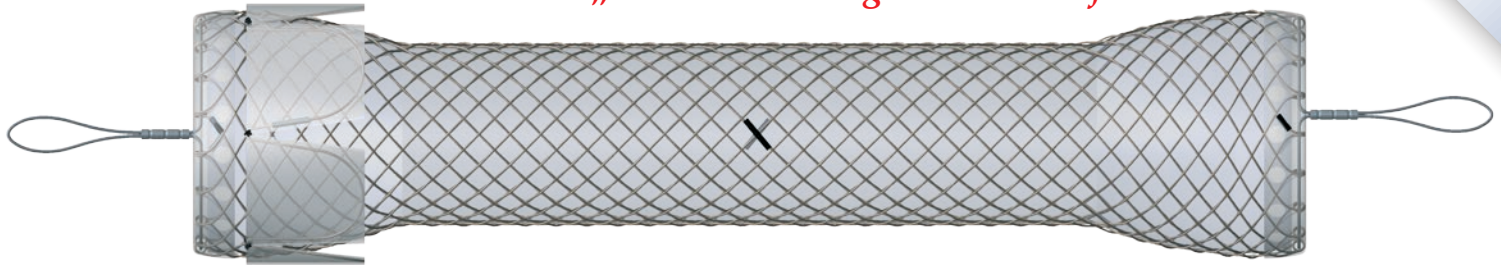

New slim design

HV Stent Plus

Enhanced version of the covered esophageal stent

„reduction in migration rate of 71.4%“⁽¹⁾

Features

- Highly flexible delivery system 16 F / 22 F
- Compact olive tip
- Proximal & distal retrieval loops
- Anti-migration collar
- Radiopaque markers
- Stent diameter (body Ø 18 mm / flares Ø 25 mm)
- Available lengths (85, 110, 135, 150 mm)
- Optional anti-reflux valve

„4/79 (5.1%) stents migrated distally ... compared with 109/615 (17.7%) stent in ROST 2 registry“⁽¹⁾

„The Ella HV stent confers a statistically significant reduction in distal migration compared with stent types recorded in the national registry, reducing the need for re-intervention with associated risks and cost.“⁽¹⁾

„100% success in placing the stent across the GOJ“⁽¹⁾
